Photo of the magnificent old cow Tusker coded as F-D11 on 9th May 2020, TENP. She is unquestionably the monarch of Tsavo's elephants with her old age, immense knowledge gathered over many decades and of course her incredibly long and symmetrical ivory.

Aerial Reconnaissance - Areas Covered:

- This vital conservation tool provides “*eyes in the skies*” over Tsavo and directional guidance to ground units.
- All flight paths are logged and recorded with all relevant real-time observations relayed to KWS on a daily basis for their records as well as necessary rapid actions.

Map shows Tsavo Trust's flight paths over the TCA in May 2020.

53 hours flown covering 6,073 kilometers over Tsavo in support of KWS.

Covering: Air & ground activities; Big Tusker monitoring; Locating illegal activities; Wildlife monitoring; Aerial census and telemetry tracking.

Photo shows the Mbololo Site B completed Sand Dam in TENV on 8th May 2020. This is part of Phase 1 of the joint KWS / TT / ASDF sand dams for wildlife project over the coming years. It has been generously supported by Disney Conservation Fund / Wildlife Conservation Society.
