SEPTEMBER 2024 MONTHLY REPORT

The image shows a black rhinoceros and her young calf navigating the dry landscape of Tsavo West National Park's Intensive Protection Zone. This sight evokes a mix of awe and concern for their future, as black rhinos are listed as Critically Endangered. Tsavo Trust supports the Kenya Wildlife Service's efforts to safeguard this species from both natural and anthropogenic threats. New births like this one are a testament to successful conservation efforts and a sign of how important this Tsavo landscape is especially for high value species. Unusual Photo of the Month:

September 2024: Photo shows one of Tsavo's iconic Super Tuskers coded as BAI. He is a very handsome elephant. Through the joint KWS / WRTI / Tsavo Trust Big Tusker Project, we place much time and effort into trying to secure these majestic Tuskers. We have known and named this elephant 12 years ago, when he was first recorded as an "emerging Tusker". Photo Credit: Tsavo Trust – Richard Moller.
